## **Wilson Becomes DMB Chief Deputy Director**

LANSING—Lisa Webb Sharpe, director of the Michigan Department of Management and Budget (DMB), announced that Rose Wilson was promoted from DMB Director of Agency Services to DMB Chief Deputy Director.

"Rose knows and understands DMB's operations, provides solid leadership, and produces effective cost containment strategies," said Webb Sharpe. "She's a consummate professional, who brings stability and a sound work ethic to this position. I am pleased that she has accepted this position."

In her new role, Wilson will be responsible for the implementation of DMB's mission, policies, strategic plans, directives, and budget oversight. She also acts on behalf of the DMB Director in her absence.

"I appreciate the opportunity to be promoted from within the organization," stated Wilson. "We have an outstanding team here at DMB, and I welcome the opportunity to work with them in a leadership role to accomplish DMB's mission as partners in achieving excellence."

Previously, Wilson's outstanding leadership and dedication enabled more than \$13 million in fleet reductions, provided more than \$2 million in cost-savings in Agency Services, successfully completed the Y2K (Year 2000) software modifications and hardware upgrades for all departmental software programs, including the state's pension system; led technology improvements in the state's consolidated mail operations and received the Best in Class Innovation Award from the United States Postal Service.

Wilson received a Bachelor of Arts with honors from Salve Regina University in Newport, Rhode Island, and a Masters of Health Services Administration from the University of Michigan. She replaces Ed Dore, who left to become the Chief Deputy Director for the Michigan Department of Community Health.
